CUTTING – EDGE MEDICAL TECHNOLOGY COMES TO WACO, TX
Only a handful installed within the United States

WACO, TX – Oral & Facial Surgery will receive a greater benefit in Waco, Texas because of the advancement of the E-Woo Master Superior Cone Beam 3-D CT X-ray which will be installed at the Heart of the Brazos Oral & Facial Surgery in the upcoming weeks.

The South Korean manufacturer has installed only a handful in the United States making the installation at Heart of the Brazos Oral & Facial Surgery a ground-breaking event.

The cutting – edge medical technology will provide more accurate and predictable diagnosis for surgical outcomes which can include, facial trauma, reconstructive surgery, wisdom teeth extractions and dental implants.

Drs. Charles Clark and Scott Warren, Oral & Maxillofacial Surgeons for Heart of the Brazos Oral & Facial Surgery states that the technology is certainly needed in Waco.

“In a community population of more than 100,000 providing this type of technology is essential to better care for the needs of those in our community when it comes to oral and facial surgery,” states, Dr. Warren.

In order to introduce the E-Woo 3-D CT Scan to Waco, the Heart of the Brazos Oral & Facial Surgery will host a demonstration, *by invitation only*, to the medical community at Rosati’s restaurant in Hewitt, Texas on February 16th beginning at 6p.m. Dr. Jeff Brooks, E-Woo Medical Director of Little Rock, Arkansas will be the keynote speaker.
